3. SURVEY & LOSS DETAILS

SURVEY & INSPECTION OBSERVATIONS

During our survey visit at the affected insured premises at Village Surekalna, Jamalpur, WB on dated 23.04.2026@14.00Hrs as per appointment.

It was observed that the insured works of Somnath Pal (M/s.Pal Paper Lamination) is a shed built of class-I construction having masonry brick walls with thatched tin roofing upon iron trusses. The premises measures about 72ft in length and 15ft in width in which machines are installed to carry out the process of sheet cutting and film lamination upon kraft paper rolls which are the finished products. Adjacent to the 15ft space within the premises is another 10ft area in breadth separated by tin partition an area where both raw paper reels and finished goods are kept stored. Beside which is a the brick built masonry wall and beyond which is vacant space outside of the premises used for open storage as well. There is a submersible pump installed in the open storage towards water supply.

The height of the factory is about 8-10ft with tin roofing. The insured has its manufacturing machinery installed like i)Lamination Machine ii)Shid Cutting Machine, through which his process is carried out at the rear end portion of the premises.

Whilst in the front is an area occupied within the premises by insureds brother Mr. Sabyasachi Pal who is engaged in making paper plates from laminated sheet rolls as bought from the insured. There are several machines installed in the said space like Cutting Mc, Hydraulic Mc, Ball Press Mc, Crank Mc etc in all 8nos which are like held in trust in the insureds premises. Similarly stocks of finished goods of insureds brother was also within the said premises as goods held in trust, which got affected burnt.

The finished laminated rolls as manufactured by the insured are either sold to customers for paper plate making or are also made therein as per customers orders received by insured.

The insured buys raw materials like kraft paper (of 75-90-100 &120 gsm) from local vendors or Baglamukhi Paper Mill and sells finished products to their few permanent and local customers and also to his brother Ms. Sabyasachi Pal.

EXTENT OF DAMAGE

Upon inspection, it was observed that the fire spread throughout the entire factory and damaged all materials and machinery inside the premises.

It is reported that inside the factory materials were burnt to ashes and machinery was damaged due to the fire remains of few finished goods rolls and or raw kraft paper as well as laminated paper plates charred in the fire was also found along-with the burnt machines which are beyond usage now.

The fact of the incident is true and the loss has occurred due to accidental fire arising out of unknown reason. The Jamalpur Police Station has made a G.D. Entry vide No: 1173 Dtd 23.4.26

CAUSE OF DAMAGE

Loss due to Fire.

SALVAGE PROSPECTS

The transformer core and internal winding are completely charred and non-repairable. However, the outer steel tank, copper scrap from windings, and transformer oil (approx. 1,200 liters) retain scrap value. Estimated salvage value is approximately Rs. 85,000 based on current prevailing copper and metal scrap rates. The insured has expressed interest in retaining the salvage on a net-deduction basis

POLICY LIABILITY ASSESSMENT

test
